

STUDIO MARC MULDER

Oostelbeers

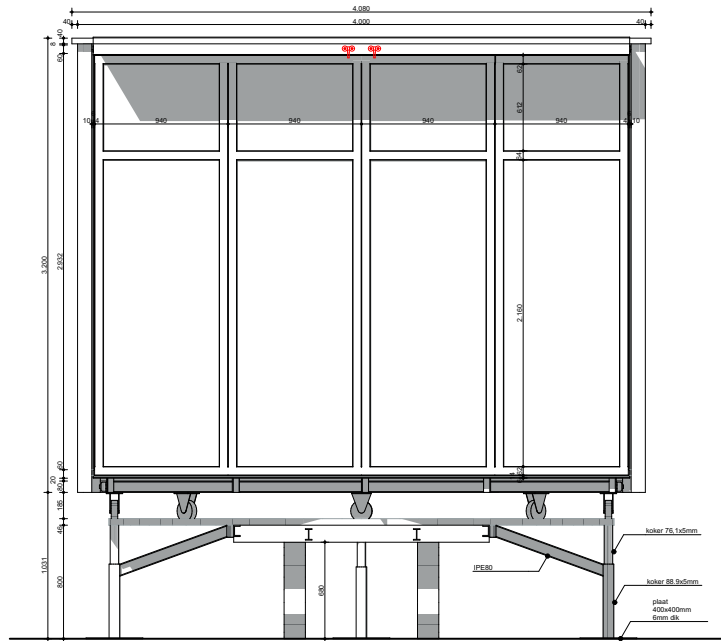

STUDIO MARC MULDER

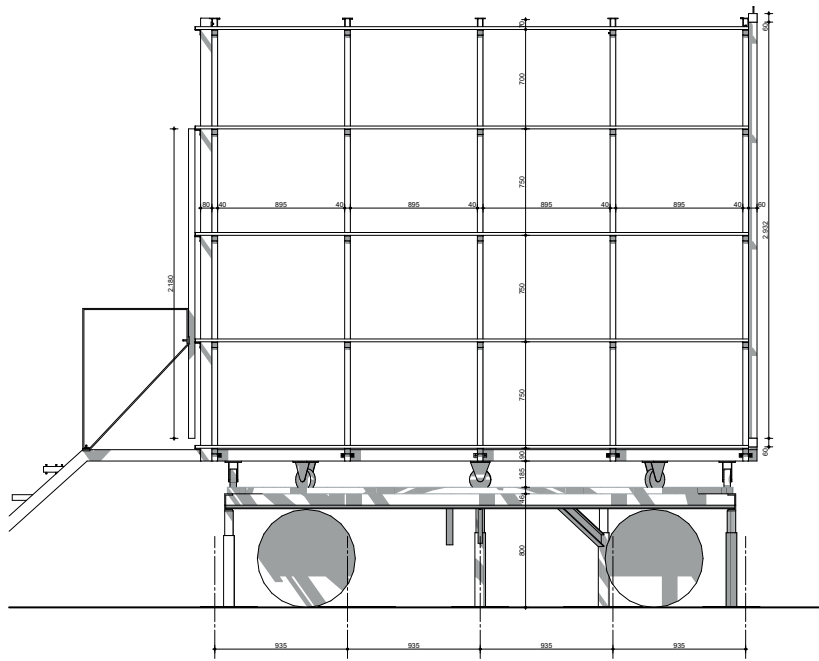

Location	Oostelbeers
Type	new construction
Function	mobile studio
Fase	executed
Client	private

An outdoor studio. Painting on location. That is the ideal for Marc Mulder.

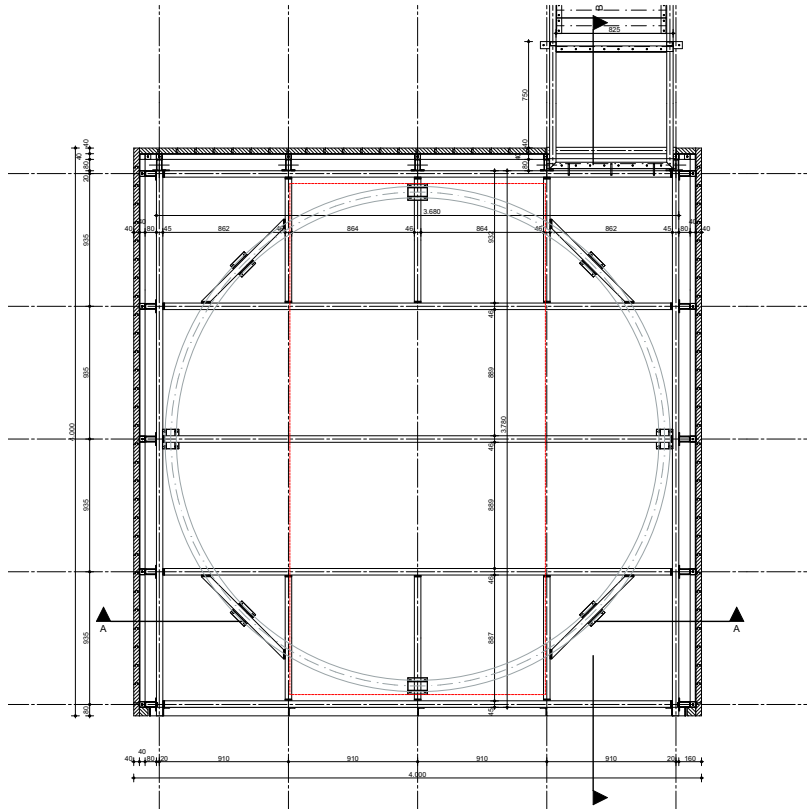

How to realize this? That is the main question for Eek and Dekkers. 'It is not just a studio, so the space where Marc makes his work, but because it is mobile and stands in the middle of the flower fields that Marc has painted for years, you could say that Marc from now on, when he paints in the studio , makes his work in his own work. The studio is not only mobile, but can be rotated by hand on the base, so that the view and light can be chosen as you wish.
